Venus

- This rocky planet is the second planet from the Sun.
- This planet is very hot and has many of clouds.
- This planet is about the same size as Earth.
- It takes 243 days for this planet to make 1 rotation (spin).

Earth

- This planet is third from the sun and has 1 moon.
- This rocky planet has water and air.
- This planet is 1 AU (astronomical unit (150 million km) from the Sun.

5 Free Printable Solar System Worksheets

My Solar System Booklet

Name: _____

Discover Your Own Planet

You have discovered your first planet on your mission in outer space. Complete your mission report back to send back to Earth. Give details about your discovery.

Name of Planet: _____

Draw Your Planet

Mixed Up Solar System

Directions: Someone mixed up the planets of the solar system. Can you help number them in the correct order below. Don't forget to color them as well!

Venus

Mars

_____ (there)

_____ (atmos, Oceans)

_____ (trees, Oxygen)

Color the solar system

PLANET RESEARCH

Research the major planets in our solar system. When you have found the answers, fill in the planets.

Mercury
 Distance from the Sun _____
 Length of time for one revolution around the Sun _____
 Diameter _____
 Temperature _____
 Number of moons _____

Venus
 Distance from the Sun _____
 Length of time for one revolution around the Sun _____
 Diameter _____
 Temperature _____
 Number of moons _____

Earth
 Distance from the Sun _____
 Length of time for one revolution around the Sun _____
 Diameter _____
 Temperature _____
 Number of moons _____

Mars
 Distance from the Sun _____
 Length of time for one revolution around the Sun _____
 Diameter _____
 Temperature _____
 Number of moons _____

Jupiter
 Distance from the Sun _____
 Length of time for one revolution around the Sun _____
 Diameter _____
 Temperature _____
 Number of moons _____

Saturn
 Distance from the Sun _____
 Length of time for one revolution around the Sun _____
 Diameter _____
 Temperature _____
 Number of moons _____

Uranus
 Distance from the Sun _____
 Length of time for one revolution around the Sun _____
 Diameter _____
 Temperature _____
 Number of moons _____

Neptune
 Distance from the Sun _____
 Length of time for one revolution around the Sun _____
 Diameter _____
 Temperature _____
 Number of moons _____

© Spectrum Books

Jupiter

- ➔ Jupiter is the largest planet in our solar system. It is so big that 800 Earths could fit inside it!
- ➔ Thick colorful clouds of poisonous gas surround this planet.
- ➔ Jupiter has many moons circling it.
- ➔ The magnetic field is so strong there you would weigh 25 times what you weigh on Earth.

Saturn

- ➔ Saturn is the second largest planet in our solar system.
- ➔ Saturn is surrounded by a system of rings that extend thousands of miles.
- ➔ Saturn's rings are made up of ice crystals. Some are as big as houses and others are as small as dust.
- ➔ Saturn has many moons circling it.
- ➔ It is a very light planet - if we could fit it in a bathtub, it would float!

2nd grade science worksheets solar system. Solar system math 2nd grade worksheets. Printable solar system worksheets for 2nd grade. Solar system activities for 2nd grade.

Kids will have fun learning about our solar system with these free printable Solar System Worksheets for kids. You'll find solar system vocabulary, planets, sun, stars, moon phases, and so much more! These free worksheets are great for Kindergartners, grade 1, grade 2, grade 3, grade 4, grade 5, and grade 6 students. Solar System Worksheets Our solar system is a fascinating thing for kids of all ages to study. Not only can they easily see the sun, they live on planet Earth, and they see bright stars in the evening sky. But there is so much more to it - a vast expanse of space filled with planets no man has ever walked on, mysteries like what is inside the earth, and so much more. It is no wonder even adults are fascinated with space travel, space exploration and science fiction shows like Star Trek and Star Wars. Our universe is truly an amazing and wonderful place. These solar system worksheets are a fun way to learn more about the milk way galaxy, mars, venus, Mercury, Jupiter, Saturn, Uranus, Neptune, the moon, and so much more!

Whether you are a parent, teacher, or homeschooler - these free science worksheets are a great way to make learning fun. You will love that they are no prep! Use these with an astronomy or solar system unit with pre k, kindergarten, first grade, 2nd grade, 3rd grade, 4th grade, 5th grade, and 6th grade children. Free solar system printables I created these solar system worksheets free as part of our Solar System unit. Studying the solar system is a lot of fun. Kids have a natural interest in the stars, sun, planets, and more and this science unit is a great way to draw on kids natural curiosity and interest for a teachable moment. They are a great way to help reinforce what kids are reading / learning as well to ensure they are remembering what they are studying as well. You will love that they include a huge variety of resources to learn astronomy for kids vocabulary, moon face, moon phases, planets worksheet, planet order, and so much more! Solar system printables Start by scrolling to the bottom of the post, under the terms of use, and enter your information in the box and click PRINT. For current subscriber, you will be immediately redirected to the pdf file so you can save the freebie and print the pack. If you are a new reader, WELCOME! By entering your email address you will added to our free weekly newsletter filled with educational activities, fun ideas, and free printables to make learning fun for kids from toddler-8th grade! Don't close the page, you will also get instant access to the free solar system worksheets. Solar system worksheet Included in these free printable solar system worksheets is what our family used to study the solar system. Of course we added some engaging books and hands on science projects too - you can see them in our solar system unit. There are 25 pages in this huge pack with a variety of levels to accommodate kids from Preschool - 8th grade. This is such a fun science unit to do together as a family! Solar system printable In the free printable free solar system worksheets you'll find the following different solar system worksheet: Solar system vocabulary (29 color cards) Solar system vocabulary quiz Label the Planets Planet Order (with mnemonic device) Sun Review Questions (and answers) Moon Review Questions (and answers) Inner Planets Review Questions (and answers) Outer Planets Review Questions (and answers) Label the Moon Phases Moon Observations Mercury Facts Venus Facts Mars Facts Jupiter Facts Saturn Facts Uranus Facts Neptune Facts Solar system for kids printables Looking for more fun, hands on science activities to teach kids about astronomy or to round out your solar system for kids unit. You will love these hands on solar system activities and lessons: The Sun Activities for Kindergarten - learn about the sun and how the planets orbit around it including a fun planets game for kids! Moon Activities for Kids & Astronauts Too - make oreo moon phases, DIY telescope, learn about the astronauts who landed on the moon, and more! Inner Planets for Kids (Mercury, Venus, Earth, Mars) - Use our free planet worksheets and fun hands-on activities like Mercury craters, Venus' melting rocks, layers of the earth, and erupting Mars volcano Outer Planets for Kids (Jupiter, Saturn, Uranus, Neptune) - combination of hands-on solar system projects and solar system printables; gaseous Jupiter, Saturn Rocket, plus cloudy Uranus and Neptune. Pluto, Asteroid Belt, Comets, and Stars for Kids - make a FUN constellation projector, cold Pluto ice cream project, and grape constellation project Yarn Solar System Project - fun, unique, and easy solar system model that is cheap and so pretty! Paint Stick Solar System Project - easy-to-make solar system model for kids that doubles as an activity for learning the names and order of the planets Pipe Cleaner Constellations - fun hands on pipe cleaner constellations activity for kids Simple Galaxy Science Experiments Looking for more fun, engaging, creative, and memorable moon projects for kids? You will love this 50 Moon Activities for Kids & Crafts collection with the best ideas from the whole internet! TONS of really cool Solar System Project Ideas for kids of all ages Solar system worksheets for kids Plus, don't forget to add these free solar system worksheets and printables to your lesson plan: Science for Kids Looking for lots more fun, science experiments for kids? You've GOT to try some of these outrageously fun science experiments for kids! We have so many fun, creative and easy science experiments for elementary age children: Free Printable Animal Classifications for Kids Cootie Catchers 19 Edible science experiments - which delicious project will you try first? HUGE Free Solar System Unit (coloring pages, hands on science projects, worksheets, and more!) Pipe Cleaner Constellation Activity (As seen on Good Housekeeping!) Teach kids about conductivity with this fun squishy circuits projects Amazing, Heat Sensitive, Color Changing Slime Life Cycles for Kids (from penguin to sunflower and spider to turkey we have LOTS of life cycles to explore and learn about) EASY, Colorful Oil and Water Science Experiment Kids will be amazed as you change colors of white flowers with this Dying Flowers Science Experiment This super cool Lego Zipline is fun and simple to make Human Body Project Check out this super cool look INSIDE a Volcano Project Exploding Watermelon - science experiment that explores potential and kinetic energy with a big WOW moment! Memorable Life Size Skeletal system science project - includes free printable template Mind-Blowing Magnetic Slime for Kids 5, 4, 3, 2, 1, BLAST OFF! Rocket Baking Soda and Vinegar Experiment Find LOTS more Easy Science Experiments for kids of all ages! Solar System Books for Kids Looking for some fun solar system books to add to your study? Check out these family favorites! This is for personal use only (teachers please see my TPT store) This may NOT be sold, hosted, reproduced, or stored on any other site (including blog, Facebook, Dropbox, etc.) All materials provided are copyright protected. Please see Terms of Use, Graphics Purchased and used with permission I offer free printables to bless my readers AND to provide for my family. Your frequent visits to my blog & support purchasing through affiliates links and ads keep the lights on so to speak. Thanks you! Solar System Word SearchIf your child is fascinated by outer space, he'll love this solar system word search! While reviewing planet names, he'll ponder the mysteries of the universe. Live worksheets > English Finish!! Please allow access to the microphone Look at the top of your web browser. If you see a message asking for permission to access the microphone, please allow. Close Free printable solar system planet worksheets for kindergarten, grade 1, grade 2 and grade 3 kids. Drawing, diagram and coloring these planets of the solar system worksheet give strong knowledge about the variations and properties of planets. Teaching solar system to kids It's pretty simple! Solar system is consists of our sun, stars and objects go around it (orbit). It includes eight planets and their moons, as well as asteroids, comets, and dwarf planets. The Sun - The Sun is an extremely hot, glowing ball of gas at the center of the solar system, and it provides us with heat and light.Rocky planets - Mercury, Venus, Earth, and Mars are known as the rocky planets. They are all solid spheres made almost entirely of rock and metal.Asteroid belt - Asteroids are lumps of rock from 3 ft (1 meter) to a few hundred miles across. Most orbit the Sun in a region called the asteroid belt.Jupiter, Saturn, Uranus, and Neptune are called gas giants because they are made mostly of helium and hydrogen. They are much bigger than the rocky planets, and they orbit the Sun more slowly.Dwarf planets - Dwarf planets, such as Pluto, are much smaller than the rocky planets. Their gravity is only just strong enough to make them form a spherical shape.Comets - These lumps of rock, ice, and dust usually orbit in the solar system's outer regions, but occasionally they pass closer to the Sun and heat up, producing bright tails. How to memorize the order of the planets in the solar system? There are lots of tricks available throughout internet and easily you can use it. But we personally refer love this below sentence to teach order of the planets, "My Very Educated Mother Just Served Us Noodles" My - MercuryVery - VenusEducated - EarthMother - MarsJust - JupiterServed - SaturnUs - UranusNoodles - Neptune We created 11 free solar system planet worksheets on coloring, drawing, word search puzzle, crossword puzzle, and match order of the planets in pdf format. The solar system pictures help kids to do coloring and find the differences of the planets. To improve vocabulary we add missing letters unscramble words on planet names. To learn the order of the planets, we add match the order of the planets worksheets as well. All these activities on solar system for kindergarten, 2nd grade and 3rd grade kids are created based on academic topics. Space planets coloring worksheets Download Planets Matching activity for grade 3 Download Download Choose the correct answer Download Fill in the blanks Download Planet names missing letters Download Solar system planets crossword puzzle Download Download Space and solar system planets scramble words Download Planets word search activity for 3rd grade Download

An Educational platform for parents and teachers of pre-k through 7th grade kids. Support your kids learning journey with games, worksheets and more that help children practice key skills. Download, print & watch your kids learn today! Print our Sixth Grade (Grade 6) worksheets and activities, or administer them as online tests. Our worksheets use a variety of high-quality images and some are aligned to Common Core Standards. Worksheets labeled with are accessible to Help Teaching Pro subscribers only. Become a Subscriber to access hundreds of standards aligned worksheets. Satellites are objects that revolve around planets and are also part of the solar system. The Earth's natural satellite is the Moon. Some satellites like Ganymede (orbiting Jupiter) are bigger than Mercury and can have atmospheres. Artificial satellites are man-made. These ... 7th Grade Scientific Method Worksheets: What is the Scientific Method? The basic steps that scientists follow in revealing facts and solving scientific problems (a plan for solving a problem). Download Worksheet Now. Electricity can make magnets. Each electron is surrounded by a force called an electric field. When an electron moves, it creates a second field - a magnetic field. When electrons are made to flow in a current through a conductor, such as a piece of metal or a coil of wire, the conductor becomes a temporary magnet - an electromagnet. What is the relationship between electricity and ... Solar System; Environment; Material Properties; Forces & Machines; Grade 3 Explore. Breadcrumbs. Worksheets; Science; Grade 2; Plants Buy Workbook. Download & Print From Only \$1.79. Grade 2 Plants Worksheets. The life cycle of plants. These grade 2 science worksheets on plant life focus on what plants need to grow, how they develop and, ... Young learners will have fun exploring star patterns with this fun, Constellation Printables Wheel. This free constellation printables is great for an introduction to our solar system, to use with a hands-on constellations activity, or a variety of other uses with toddler, preschool, pre-k, kindergarten, first grade, and 2nd grade students. Simply print pdf file with the star wheel ... Printable worksheets for teaching students about dinosaurs. Includes reading comprehension articles, dino math worksheets, a dinosaur research project, and more. ... Solar System. Weather. More Science Worksheets. Social Studies. 50 States. Explorers. Landforms. Maps (Geography) ... Pre-K through 1st Grade. View PDF. Reading Comprehension. - Grade 5 (PDF, 992 Kb) - Middle School (PDF, 987 Kb) Students will create a model of the solar system using beads and string, and compare planetary sizes using common types of fruit and seeds. This lesson follows the simple balloon model in Lesson 2, covering the relationships of size and distance in the solar system. 20 min. 1 hr. 5th Grade Science. Topics: Animal Diversity And Adaptations, Cycles Of Life And Biomes, Landforms, Rocks And Soil, Energy Resources, The 6-Kingdoms Of Life, The Solar System, The Nature Of Science. Printable worksheets. Link to Google Classroom.
